Detect breast cancer early!

Get a free mammogram every 2 years!

www.frueh-erkennen.at

How does the program work?

Each year, approximately 7,000 women in Austria are diagnosed with breast cancer.

Breast cancer is the most common form of cancer among women. Mammograms are the best method for early detection of breast cancer. Austria offers a free program for the early detection of breast cancer for all women aged 40 and older who have no visible signs of breast cancer. For breast cancer screening, you can contact any participating radiology facility.

It (screening) could save your life and the lives of your family.“
Nadja W.

A list of contact information for your state is included with the reminder letter that is sent to you by mail every two years. You can also find all of the facilities in Austria at **www.frueh-erkennen.at**.

Who can participate?

Age 45 to 74

Women between the ages of 45 and 74 can schedule an appointment to get a mammogram every two years. **All they need is their e-card!**

To help you remember this important appointment, you will receive a **reminder letter every two years** starting on your **45th birthday.** The exam is performed at selected radiology facilities that meet high quality standards. You can find the addresses of participating radiologists online at **www.frueh-erkennen.at,** or you can call the hotline for more information. A list of participating radiologists in your state of residence is also included with the invitation letter.

Age 40 to 44 and 75+

Women between the ages of 40 and 44 and those over 75 can sign up for the program by registering online or by calling the hotline at:

0800 500 181 (Mo.–Fr., 8:00 a.m.–5:00 p.m.)

Your e-card will be activated for the screening, and you can then schedule an appointment and use your e-card to visit a participating radiologist to have a mammogram for early detection. You will receive your invitation about one week after you register.

Please make sure to bring your e-card with you to the appointment. You do not need to bring the invitation.

If you have any questions, please call the toll-free customer service line:
0800 500 181, Mo.–Fr., 8:00 a.m.–5:00 p.m., or talk to your doctor.

Important: If you have symptoms, have been diagnosed with breast cancer, are undergoing follow-up care for breast cancer, or have a family history that puts you at increased risk for breast cancer, your doctor can refer you at any time and on an individual basis for a mammogram or other necessary examinations.
